The undersigned (hereinafter referred to as "Applicant") hereby applies for Outdoor Lighting Service from Bandera Electric Cooperative, Inc. (hereinafter referred to as "Cooperative"), upon the following terms and conditions:

1. The Applicant agrees to pay the \$125.00 installation fee for each new light installed on an existing pole and to pay for this service at the applicable rate schedule.
2. In addition to the installation fee, Applicant agrees to pay a \$200 Engineering Fee when requesting a new light which requires additional equipment to be installed. Additional construction costs may apply.
3. The Cooperative shall furnish, install, operate, and maintain the outdoor lighting equipment on an existing pole belonging to the Cooperative. The light shall be electrically connected so that the power for operation does not pass through the meter that is installed for the Applicant's other usage. The light location must be mutually agreeable to both the Cooperative and Applicant. In the event that the installation of poles or other facilities are required, a non-refundable contribution-in-aid of construction charge equal to the estimated cost of any additional electric facilities (e.g. poles, wire, transformers, etc.) is required to be paid in advance of construction.
4. The Cooperative shall maintain the lighting equipment, including lamp replacement, at no additional cost to the Applicant. The monthly charge for the outdoor/street light will be in accordance with the applicable rate schedule in the Tariff. The Applicant shall notify the Cooperative of the need for maintenance of the lighting equipment.
5. The lighting equipment shall remain the property of the Cooperative. The Applicant shall protect the lighting equipment from vandalism and/or deliberate damage.
6. The Applicant shall allow authorized representatives of the Cooperative entry upon the Applicant's premises to trim trees and shrubs as necessary for maintenance of the lighting equipment and for removal of the lighting equipment upon termination of service under this agreement.

The acceptance of this application by the Cooperative shall constitute an agreement between the Applicant and the Cooperative and shall continue in force from the date the lighting equipment is installed and thereafter until cancelled by at least 30 days written notice given by either party to the other.
