FAX: 830-460-3030

Dear Member,

Bandera Electric Cooperative, Inc. has developed a Critical Care list comprised of Members who require life sustaining equipment. During a prolonged outage, BEC will contact those Members on the Critical Care list to advise them of the status of the outage.

It is the goal of Bandera Electric Cooperative, Inc. to provide reliable, uninterrupted service to our members. However, circumstances beyond the Cooperative's control can interfere with power delivery. We strongly suggest a backup plan to our Members in need of Critical Care in the case of a sustained power outage. Please also take notice that being on the Critical Care list will not prevent your service from being disconnected if your bill becomes delinquent.

Please complete the form below and return it to BEC with a note from your physician OR your prescription for life sustaining equipment stating the necessity for life support equipment in your household.

Please contact the Member Services Department if you have any questions.
